Port de Barcelona

Press release

16 March 2020

The Port of Barcelona guarantees that it will provide essential services to maintain the supply of goods

During the morning, the terminals operate in compliance with the restrictions and security measures applied by the State of Alarm

The Port of Barcelona guarantees to its customers that it will fulfil essential services to maintain the supply of goods, facilitating logistics operations and the correct provision of the various industries that have to remain in operation, as well as the consumer products that must be supplied to the public.

Accesses to the port area remain open, with the usual entrance control, and operations are performed in compliance with the necessary safety restrictions and measures. The terminals are operational and the Port Community - terminals, stowage, shipping agents, carriers, freight forwarders, customs agents, Customs, border inspection services, etc. - is making every effort to ensure the maximum operability within this state of alarm.

The Port of Barcelona will continually update all the information related to the operation of the various services via social networks and its website (www.portdebarcelona.cat/coronavirus).
